

Dental Equipment Purchased by Nautilus Minerals

March 31, 2009 – Nautilus Minerals Inc. (TSX & AIM: NUS), (the “Company” or “ Nautilus”) purchased two single mobile suction units costing TOP19, 794 for the Tongan dental section in 2008. One unit will be used in Tongatapu and the other in outer island group of Haapai. Benefits of this assistance include:

- making patients dental experience shorter and more comfortable
- increasing the number of patients treated each day
- improving the quality of dental care offered at the 2 clinics

The machines arrived in March 09 and have since been set up.
